**Turkish International
Academy Against
Drugs and
Organized
Crime**

About TADOC

It is a known fact that organized crime enterprises endeavour to render their networks undetectable in order to conduct illegal activities by utilizing from complex and advanced methods, which threaten the securities of nations, pose grave dangers against regional stability and development, and predominantly have international connections.

For this reason, meeting the need for well-trained, well-equipped and experienced personnel is imperative for law enforcement units. With that in mind, accumulated experience and best practices should be exchanged and discussed amongst national law enforcement units on various international platforms, therefore ensuring that new methods can be developed by constituting an international collaboration on rigid grounds to succeed in the fight against organized crime.

As a result of such an understanding, *Turkish International Academy against Drugs and Organized Crime (TADOC)* was established in Ankara on *June 26th, 2000* in collaboration between *the United Nations Office against Drugs and Crime (UNODC)* under the framework of *Turkish National Police (TNP), Department of Anti-Smuggling and Organized Crime (KOM)*.

With its experienced trainers, international subject experts, state of the art facilities and equipments, and the training contents developed in comparison with the needs of the region, TADOC provides distinguished basic and specialized trainings, not only to the personnel of the national law enforcement agencies, but also to the law enforcement personnel of the countries that Turkey signed bilateral cooperation agreements and treaties with. TADOC is also a significant contributor of the training projects organized within multinational organizations and institutions such as the *UNODC, NATO, OSCE and ECO*.

Our Missions

- 1) meet the need for training in the field of anti-smuggling and organized crime for law enforcement departments in the countries of the region,
- 2) meet the need for qualified personnel both in Turkey and in the region,
- 3) carry out scientific research in the field of "Fight against Smuggling, Financial Crimes, Money Laundering and Organized Crime" by developing new methods aligned with national and regional policies,
- 4) provide support to national academies in the region through modern training techniques,
- 5) contribute to communication, cooperation and coordination among operational units in Turkey and in the countries of the Region.

Our Vision

develop ethical and effective training programs in the field of "Fight against Smuggling, Financial Crimes, Money Laundering, and Organized Crime", function as a well-esteemed national and international training academy, and contribute to the development of a crime-free secure society by developing up-to-date training models, systems and techniques as well as new technologies.
